Workaway

English for You is a series intended, foremost, to provide learners with an opportunity to practice their English. Each topic includes exercises like vocabulary building, reading comprehension development, and writing improvement. However the goal is, not only to help people improve their English, but also to inspire them to think more deeply about how they can become an integral part of our changing world. The exercises are specifically designed to provide people with useful, interesting ideas and opportunities they can apply or experience for themselves. Ultimately, we want our learners to realize their full potential as human beings and get the most out of their lives.
